D5	Shenyang Strange Slope			
	♥ Today's Highlight: Visiting the Shenyang Imperial Palace and Zhang Family Mansion ♥			
	Breakfast: Provided by the hotel.	Lunch: Self-organize	Dinner: Self-organize	Accommodation Location: Shenyang

When it comes to the Forbidden City, most people immediately think of Beijing's iconic landmark. However, only few know that Shenyang also boasts about its own "Mini Forbidden City." While it is neither as globally renowned nor as large as Beijing's Forbidden City, Shenyang's Imperial Palace (also known as Shengjing Imperial Palace) has a rich history of its own; spanning two dynasties, three emperors, and 600 years.

You will get to visit the Former Residence of Zhang Xueliang, also known as the Zhang Family Mansion, which was once the official private home of Zhang Zuolin, a prominent warlord of the Beiyang Government, and his patriotic son Zhang Xueliang. Covering an area of 53,000 square meters, this historic site includes the princely garden, various structures such as the Green Mansion and Zhao Si Miss Building, that offer a glimpse into their legendary stories. Designated as a national key cultural relic protection unit, the mansion was opened to the public in December 1988. With an exhibition area of 1,600 square meters, it hosts various displays and serves as a platform for patriotic education.

In the afternoon, head to the Liaoning Science and Technology Museum, a haven for children eager to explore. This comprehensive science center combines science education, technological exchange and leisurely tourism. Here, you'll experience the wonders of science through interactive exhibits that immerse children in the mysteries of the world and marvels of technology.

Take a stroll along Shenyang Middle Street, a historic avenue with a 400-year history. This street exudes the charm of old Shengjing (the ancient name of Shenyang) and is the longest street in China themed around Qing Dynasty culture. Enjoy the vibrant atmosphere, indulge in local delicacies and relive the past as you wander through alleyways reminiscent of a bygone era. After the liberation of Shenyang,

there were over 1,530 hutongs (alleys) but due to urban development, many have disappeared. Visiting historic hutongs like E'duoyan Hutong, Tangzi Hutong, and the Shengjing Grand Industrial Theme Street makes it feel like stepping into another world.

On Shengjing Grand Industrial Theme Street, you'll encounter a large-scale immersive theatre show showcasing Shenyang's industrial history. This experience offers tourists a deeper understanding of the city's industrial heritage and a chance to relive its glorious past, while appreciating the extraordinary charm of modern Shenyang.

Finally, make your way to Central Li in Middle Street, where you simply cannot miss the distinctive Manchu Folk Museum and Manchu Costume Museum. These museums showcase traditional Manchu life, involving daily necessities, embroidery and costumes, which transports you back a hundred years into the "Manchu world." Here, you'll experience the unique cultural allure of the Manchu people, offering a refreshing contrast to modern life.

Tips for Your Trip

- 1. Weather:** The northern regions have a high latitude and temperate continental monsoon climate, which results in dry weather with large temperature differences between morning and evening. Be sure to drink plenty of water during the journey and consider bringing moisturizing lotion, lip balm and throat lozenges.
- 2. Clothing:** The air is relatively dry, so it is essential to stay hydrated. Due to significant temperature fluctuations between day and night, clothing should be adjusted accordingly.
- 3. Accommodation:** North East China is economically less developed in comparison to other regions in the country. As a consequence, the standard of service in hotels and restaurants might not be as high as in the more developed areas. Please be understanding and respectful of these differences.
 - o Room Tips:**
 - Remember the hotel name and general location. It is recommended to take a hotel card. Take a note of your tour guide or team leader's room number.
 - Check the room's facilities upon arrival to ensure everything is in working order.
 - Familiarize yourself with any items that are chargeable in the room (e.g., drinks, snacks, TV services), and only consume what you need. Settle any charges at the front desk.
 - Ensure all facilities are functioning properly (e.g., air conditioning, smoke detectors) and close windows before bedtime.

- If going out in the evening (e.g., visiting relatives or having a late-night snack), avoid going alone and visit reputable places. Inform the guide or tour leader and return to the hotel early. Always carry your valuables with you and lock the door when leaving your room.
 - When showering, use a non-slip mat and ensure the water temperature is suitable. Turn on the exhaust fan before showering.
 - Before checking out, double-check that you have all your belongings, valuables, and documents.
 - In case of theft, notify the hotel service desk immediately.
4. **Food:** North East cuisine is distinct, characterized by a combination of Shandong (Lu) cuisine and local flavours. The dishes tend to be savory, sticky and stewed, which might be quite heavy for southern visitors but is definitely worth trying. If you have any dietary preferences or restrictions, please communicate these to the tour guide. Avoid drinking unboiled or cold water to prevent stomach issues.
5. **Itinerary:**
- Before leaving each location, carefully check that you have all your belongings. Travel may not always be as comfortable as at home, so remain calm and composed if any issues arise.
 - Please be considerate and help each other during the trip. It is important to manage your time well and get enough rest.
 - In case of any emergencies, keep the contact number of the local tour guide handy.

We hope you have a comfortable and enjoyable trip!
